**Martin van Beuzekom, Jan Borgerhoff, Knut Eckstein,
Fred Hartjes, Guus van Kessel and Pet Petrauschke**

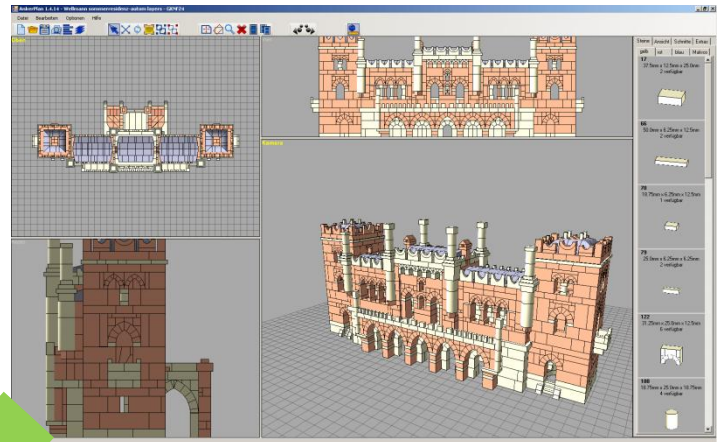

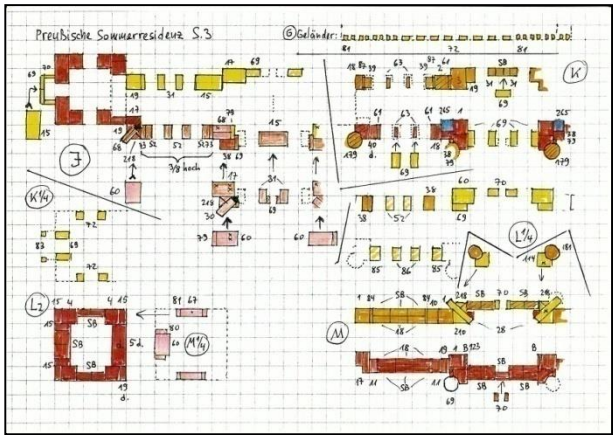

CVA meeting
Hilversum, April 22, 2017

Purpose of “Baukunst im Kleinen” (BiK)

- ◆ Reviewing **new** designs for the stone sets that are produced by the new Anker factory
- ◆ => Presently only NF sets
- ◆ A design published by BiK has the **guarantee** that
 - The building can be made with the stones of the set it is intended for
 - The building is stable
 - The common Ankerfriend can built it without much problems
 - At least 75% of the stones is actually used
 - The building has certain esthetical qualities
 - The design is drawn according to Richter standards
- ◆ ~~we do not consider large designs requiring specific stone sets~~

Presently on hold due to problems with the publication rights

◆ More potential designs available at CVA archive

- Bolhuis: Vredespaleis in the Hague
-
-

Always open for new designs for NF34
But it may take quite some time before your design
is actually published

AnkerPlan 1.5 => 2.0

- ◆ Flying Cat (Christian Korn) => Michael Erhard and Alexey Berezovskiy
- ◆ Collision detection finally solved
- ◆ Much progress on platform compatibility
 - Windows 10
 - Macintosh
 - Linux
 - NOT for Windows XP
- ◆ Some problems still with rotation, mirroring, rendering the views
- ◆ Importing AnkerPlan 1.5 files well not completely finished
- ◆ Working on including all shapes
- ◆ Data format should be fixed, not to be modified in future
- ◆ Aim to finish first workable version end of 2017
 - Cannot be guaranteed

Booklet NF30/32 completed and published

- ◆ May be downloaded from <http://www.ankerstein.ch/bik/>
- ◆ May be bought in printed version for € 15,--
 - Reduced price because of another printing shop
